Forecast for Thursday 31 Mar 2022

Weather: A cold sunny morning. Patchy cloud bubbling up in the afternoon to give the odd snow shower. Dry and clear in the evening.

Chance of cloud-free hill tops above 800m: 90%.

Low Cloud and visibility: Very good visibility, with cloud likely to be above the summits, perhaps a few patches on the higher tops late morning and early evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Unseasonably cold. Remaining snow packs will be hard and icy.

Forecast for Friday 01 Apr 2022
Weather: Cold with cloud increasing through the early hours, bringing a couple of hours of snow around dawn or soon after along the west coast, perhaps extending inland. Then a largely dry day with sunny spells by the afternoon, perhaps a few light snow showers around middle of the day. A dry evening with some clear spells, although cloud may increase in the west overnight.

Maximum wind: Northwest 10 gusting 15-20 mph

Chance of cloud-free hill tops above 800m: 40% in the morning, 80% in the afternoon

Low Cloud and visibility: Generally very good visibility outside of any low cloud, but to a few hundred meters or less in snow. Cloud extensive above 500-600m in any morning snow in the west, but expected break up and lift, rising above the summits by early afternoon.

Temperature: **Glens:** Minus 2 Celsius rising to plus 5 Celsius
At 800m: Minus 4 Celsius rising to minus 1 Celsius
Freezing level: Down to the glens, rising to 300-400m by day.
